VIA Connect² Quick Start Guide For Installer

This guide helps you install and configure your VIA Connect² for the first time.

Go to [www.kramerav.com/downloads/VIA_Connect²](http://www.kramerav.com/downloads/VIA_Connect2) to download the latest user manual and check if firmware upgrades are available.

Step 1: Check what's in the box

- ✓ VIA Connect² Collaboration Device
- ✓ 1 VESA mounting bracket
- ✓ 1 Video toggle cable
- ✓ 1 Power supply (12V DC) with adapters for US, UK, and EU
- ✓ 1 VESA screw set
- ✓ 1 Quick start guide

Step 2: Get to know your VIA Connect²

#	Feature	Function
1	Video Toggle Connector	Connect to video toggle cable for toggling between VIA input and HDMI™ input.
2	Micro SD Card Slot	Not in use.
3	Power Button with LED	Press to power ON or turn OFF the device.
4	USB 3.0 Connectors (x2)	Connect to USB devices, for example, a keyboard and a mouse.
5	USB 2.0 Connector	Connect to a USB device, for example, a keyboard or mouse.
6	Lock Opening	Connect to a security locking cable.
7	HDMI™ OUT Connector	Connect to an HDMI sink.
8	RJ-45 Connector	Connect to a LAN (default mode).
9	HDMI™ IN Connector	Connect to an HDMI source.
10	Power Connector	Connect to the 12V DC power supply.

Step 3: Install VIA Connect²

Place VIA Connect² on a flat surface, or mount on a wall or the back of a display using the included VESA mounting bracket:

1. Attach the VESA mounting bracket to the back of the display with 4 screws.

2. Fasten two screws to the bottom of VIA Connect².

3. Insert the screws on the bottom of VIA Connect² into the slots on the mounting bracket.

When mounting the device on a display, the installer MUST secure the display to prevent instability.

Step 4: Connect the inputs and outputs

Always switch OFF the power on each device before connecting it to your **VIA Connect²**. For best results, we recommend that you always use Kramer high-performance cables to connect AV equipment to **VIA Connect²**. Using third-party cables may cause damage!

1. Connect the keyboard and mouse.
2. Connect an HDMI display.
3. Connect to the LAN (default mode).
4. If required, connect a wired HDMI video source.

If you wish to use a Kramer active optical pluggable HDMI cable with your **VIA Connect²**, contact your local Kramer office to assist in purchasing the correct cable.

Step 5: Connect the power

Connect the 12V DC power adapter to **VIA Connect²** and plug it into the mains electricity.

- Caution:** There are no operator serviceable parts inside the unit.
 - Caution:** The device is intended to be installed at a height of 2 meters or less.
 - Warning:** Use only the Kramer Electronics power adapter that is provided with the unit.
 - Warning:** Disconnect the power and unplug the unit from the wall before installing.
- See www.KramerAV.com for updated safety information.

Step 6: Configure VIA Connect²

A wizard guides you through configuration. If you choose to skip the wizard, follow these steps for configuration:

General Settings Configuration

1. On the main display, click the VIA icon in the lower left corner. The VIA gateway dashboard appears.
2. Click **Settings**. The settings login window appears.
3. Enter the User Name (default = su) and Password (default = supass) and click **Login**. The VIA Settings window appears.

The VIA Settings tabs are:

- LAN Settings – Configure network parameters (default = DHCP)
 - System Controls – Define audio input and output sources, change display resolution, view system health indicators, and activate your unit.
 - Wi-Fi – Activate and configure the built-in Wi-Fi capability.
4. When you have finished configuring settings, click **Reboot** to apply all settings.

The screenshot shows the VIA Settings login window. It has a dark background with white text. At the top left is the VIA logo. Below it are two input fields: 'User Name:' and 'Password:'. At the bottom right are two buttons: 'Login' (in blue) and 'Cancel' (in white).

Change to AP Wi-Fi Mode

Set up the built-in Wi-Fi module as a secondary Access Point (for guests).

1. On the Wifi tab, click the **Wifi Settings** switch. The switch turns green and additional Wi-Fi settings appear.
2. Click **AP Mode**, and enter a new name in the SSID field and a new password or use the default name and password.
3. Select a Wi-Fi channel for the Access Point.
4. Select **Enable Internet** (if the primary LAN network is connected to the Internet) OR **Activate Standalone Wifi** (to create an autonomous network without Internet access) and click **Apply**.

Switch to Client Wi-Fi Mode

Attach your **VIA Connect²** as a client device to your main network:

1. On the Wifi tab, click the **Wifi Settings** switch. The switch turns green and additional Wi-Fi settings appear.
2. Click **Client Mode**, select an available network from the drop-down.
3. Enter the required password and click **Apply**.
4. Disconnect the LAN cable (if connected) before rebooting the device.

VIA Connect² Quick Start Guide For User

This guide helps you participate in a meeting using VIA Connect².

Go to [www.kramerav.com/downloads/VIA_Connect²](http://www.kramerav.com/downloads/VIA_Connect2) to download the latest user manual.

Step 7: Connect your personal device to the proper network

Connect your personal device to the same Wi-Fi network to which the VIA Connect² in your meeting room is connected.

Step 8: Run or download the Kramer VIA app

For Mac or PC:

1. Enter the Room Name of the VIA Connect² device into your computer's browser. The Welcome page of VIA Connect² appears.

2. Click **Run VIA** to execute the **Kramer VIA** app without downloading it. (Intended for guests who are using VIA only temporarily.)
OR
Click **Install VIA** to download the **Kramer VIA** app onto your computer. (Intended for regular users of VIA.)
OR
Click **Join Through Browser** to use an online version of Kramer VIA. (Only when there is internet access.)

For iOS or Android devices:

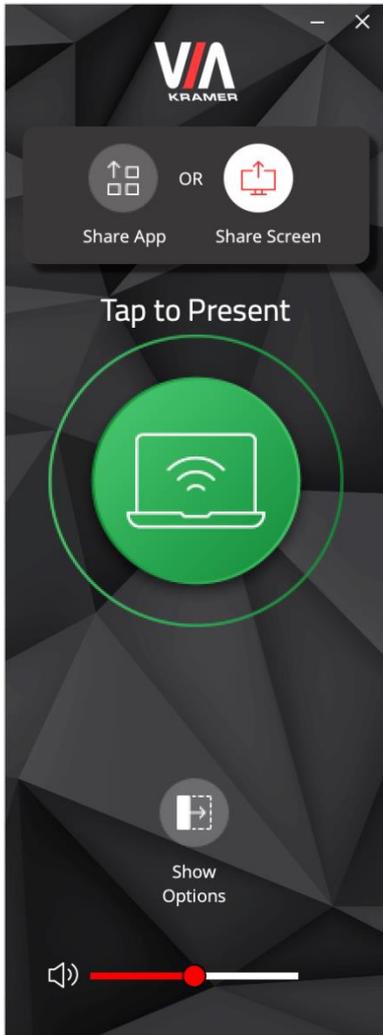

- Download and install the free **Kramer VIA** app from Apple App Store or Google Play or scan the QR code above.

Step 9: Join the meeting using Kramer VIA App

1. Open the Kramer VIA app and, on the Welcome to VIA window, click **Join** next to the name of the VIA device to which you want to connect. The Login window appears.
2. In the Nickname field, enter a name for your device. This name appears on the main display when you present content.
3. In the Room Code field, enter the 4-digit code as it appears on the main display (if enabled).
4. Click **Join**.
You are logged into the VIA meeting.
The VIA Dashboard (and taskbar icon for laptops) appears on your device screen.

Step 10: Using the VIA dashboard menu

- Tap the green button to present your screen to the meeting participants on the main display.
- Tap **Show Options > Features** to access **VIA Connect²** features.
- Tap **Show Options > Participants** to see who else is connected.

Step 11: VIA Connect² Features

For a complete, updated list of available features go to: via2.kramerav.com/via-solutions.
